

SPECIFICATION SHEET

Product Group: **Café Barrier Systems**

PRODUCT NAME: DYE SUBLIMATED BANNER

Product Code: **BLDYESUB**

Product Description

Ideal for banners where the fabric colour has to match a specific Pantone or corporate colour. The colour is dye sublimated into a canvas polyester fabric which is similar in appearance to standard acrylic canvas.

- ⇒ The printed, 500gsm fabric is heat treated to embed the ink into the fabric making it both scuff-resistant and washable.
- ⇒ Suitable for both indoor and outdoor use canvas polyester is M1/B1 fire-rated to comply with UK and European fire safety standards.
- ⇒ Suitable with all of our café barrier posts
- ⇒ The dye sublimated banners are manufactured entirely in house and can therefore be made at any width
- ⇒ This material is supplied in a white base
