

SPECIFICATION SHEET

Product Group: **Café Barrier Systems**

PRODUCT NAME: **PVC BANNER**

Product Code: **BLPVC**

Product Description

The PVC café barriers are both light and durable which makes them ideal to roll up and store and very easy to carry, whilst being able to sustain long periods of time outside in all types of weather. The PVC cafe barrier is a firm favourite for the more robust venues.

- ⇒ Manufactured from 610 gsm polyvinyl chloride.
- ⇒ Available single sided or double sided print
- ⇒ Multi-coloured print available
- ⇒ The banners are printed digitally in-house. This means we can match your banners to any Pantone or CMYK value.
- ⇒ This material is supplied in a white base
