

SPECIFICATION SHEET

Product Group: **Planters**

PRODUCT NAME: **BAYLIS PLANTER**

Product Code: **BLBAYLIS**

The Baylis is our most popular planter. Individually crafted from steel and sustainably sourced wood to create an aesthetically pleasing planter that is reassuringly robust and durable.

- ⇒ **Preparation for planting** : The planters are fully lined, full depth. Baylis planters come with drainage holes as standard, but for best results we recommend a layer of lightweight expanded aggregate (clay balls) below the soil to improve drainage
- ⇒ Manufactured entirely in-house, we can work with you offering bespoke sized planters to fit seamlessly on your terrace area
- ⇒ **Wood Finish** : Weather resistant. Standard paint and stain finishes are Cuprinol Shades. Other manufactures stains are available upon request
- ⇒ **Branding** : Planters can be digitally printed, stencilled, burnt or have vinyl applied
- ⇒ **Metal frame** : Powder coated black as standard. Over 200 RAL colours to choose from for the frame and fittings

Technical Data

- Size** : Our planters are manufactured to a tolerance of +/-7mm. The overall height will include any chosen castor or leg options
- Weight** : Variable. Minimum weight is 38 Kgs
- Composition** : Sustainable timber and steel
- False Bottom** : Supplied with 2 shelf options: either 300mm "full depth", fully lined for planting or "shallow" 120mm for faux foliage.
