Product Group: **Shade & Shelter**

PRODUCT NAME: BIGBEN

Product Code: **CARABIGBEN**

Product Description

The professional quality large parasol Big Ben is an eye-catcher for every patio. With its majestic and elegant look it sends a clear signal even from afar: a comfortable, sheltered seat awaits you. With its many extras, high wind stability and a span of up to 7 metres, it was specially developed to meet the high demands of hospitality and commercial use.

Durable Design : Only the best materials and extra strong aluminium profiles are used in the robust design of Big Ben. The solid mast has a diameter of 84 mm and a wall thickness of 5 mm, making it stronger than most others in its class

Practical Alignment Guide : This guide greatly simplifies the erection of large parasols. Simply screw adjusting screws into ground sleeve or mobile base. Position the parasol. Thread the alignment guide into the screw and push the parasol up. Then simply screw in place and it's all done

Wind Stable Up To 100 km/h : Its solid design makes Big Ben extra robust. To prove this, the professional parasol was tested by structural engineers in a wind tunnel, where the 3 x 3 m version can withstand even strong winds of up to 100 km/h

Telescopic System : The advantage: the telescopic system extends the mast when closing meaning tables and patio furniture can stay where they are

Features

|	
Operation :	Crank mechanism or motor (optionally with solar panel or WMS wireless system)
Fabric :	Premium acrylic awning fabric in more than 120 colours. Also optionally available with water-permeable or fireproof fabrics
