

SPECIFICATION SHEET

Product Group: **Shade & Shelter**

PRODUCT NAME: CENTRO

Product Code: CARACENTRO

Product Description

The new Caravita parasol Centro has an impressive mast diameter of 70mm. It provides both robust and reliable shading for gastronomic outlets. The parasol opens and closes with an easy to use crank system.

High Grade Hub : The Centro parasol is equipped with an especially strong and solid aluminium hub. Powder coating is available in any chosen RAL colour with a slight up-charge

Extremely easy to use : Centro can be opened and closed with a detachable stainless steel crank. The mechanism inside the mast ensures that the parasol can be closed easily with minimal physical effort.

Sophisticated Telescopic Design : When closing, the telescopic mechanism extends the pole! Tables and patio furniture can simply stay where they are.

Table Struts : The parasol struts, made of 2 mm thick aluminium tube, are reinforced with special profiles in sections under particular strain.
