

SPECIFICATION SHEET

Product Group: **Café Barrier Systems**

PRODUCT NAME: LASER CUT PANEL

Product Code: BLLASER

Product Description

To add a unique distinctive style, or to simply introduce a single focal point, the Brandline Laser Cut panel delivers on all fronts.

- ⇒ Made from powder coated mild-steel (tested to ASTM B117), the Brandline Laser Cut panel can be powder coated to match any RAL colour making this product suitable for a wide variety of applications where colour coding or matching to an existing logo or colour scheme is crucial
- ⇒ For a more industrial look the Brandline Laser Cut panel can also be cut from weathering steel for a stable rust-like appearance
- ⇒ The process of cutting via laser ensures guaranteed precision with a burr-free finish
- ⇒ To complete the look, the Brandline Laser Cut panel can easily be paired with any Brandline barrier post
- ⇒ In terms of dimensions and design, the Brandline Laser Cut panel can be produced to completely bespoke requirements and we can work with you to create the ideal product in terms of both finish and budget
- ⇒ For delivery lead times, please contact Sales on 01327 366007 or email sales@brandlineproducts.com
