

SPECIFICATION SHEET

Product Group: **Traditional Posts & Rope**

PRODUCT NAME: TWISTED ROPE

Product Code: **BLTWIST**

Product Description

The Twisted rope is made from multifilament Polypropylene fibres for a soft-handling and luxurious feel. The 25mm diameter, three stranded construction rope is suitable for indoor and outside use and is UV stable and fully weather resistant.

- ⇒ Available in seven colours—black, silver, red, navy blue, pink, purple and white
- ⇒ Available in four standard lengths—1200mm, 1500mm, 1800mm and 2000mm. Bespoke sizes are available upon request
- ⇒ Heavy duty cotton core
- ⇒ Easy cleaning properties
- ⇒ Suitable for use with all of our rope posts
- ⇒ The trigger rope ends ensure accidental release is avoided. Lock the chord into place to ensure that they are not accidentally knocked from the ring on the barriers
- ⇒ Bound and sealed rope ensures that the ends will not fray after time. We use a solid wire to ensure that the rope will not become detached during use and will maintain the perfect barrier systems

Options

- Custom lengths
- Choice of rope end finishes
