

SPECIFICATION SHEET

Product Group: **Café Barrier Systems**

PRODUCT NAME: HEAVY DUTY BEAM END

Product Code: **BEAMEND**

Our café barrier beam ends are the strongest on the market.

- ⇒ Our heavy duty beam ends are manufactured in zinc plated steel.
- ⇒ Our products are manufactured using a turning process rather than the much weaker casting process that many competitors provide.
- ⇒ Our café barrier beam ends incorporate a patented trigger mechanism which avoids accidental release.
- ⇒ Simply slide your beam into the beam end, drill and rivet into place.

Technical Data

Weight :	0.35 kg
Diameter :	29mm
To Fit Tube :	25.4mm
Depth :	30mm
Finish :	Zinc Plate
