

# SPECIFICATION SHEET

Product Group: **Shade & Shelter**

**PRODUCT NAME: DOUBLE DECKER**

Product Code: **SANBARDD**

## Product Description

A throwback to the '60s and '70s, the Double Decker® umbrella pays homage to the mid-century modern movement. Made famous by the photography of Slim Aarons, this two-tiered showstopper became a fashionable addition to many iconic California landscapes. From playful to sophisticated, Double Decker umbrellas, available in square and hexagonal shapes, offer endless customisation options. By pairing popular mid-century colours like sun-kissed oranges, yellows, and vivid turquoises with bold valance choices such as keyhole, marquis or scalloped with fringe, Santa Barbara Designs has created a retro look that is as relevant today as it was mid-century.

**Double Deck Structure** : The playful umbrella frame is cleverly fabricated into two levels, constructed of sturdy aluminium, safeguarded from corrosion with a special Chem Film® conversion coating. Select from eight powder coat colours.

**All Metal, Never Plastic** : The Double Decker utilises stainless steel fittings paired to the aluminium frame to ensure stability and durability.

**Your Choice of Valance** : The Double Decker comes with a standard straight edge valance – or you can customize with one of our other valance treatments.

**Stitched to Last** : Our sewing workroom uses Gore® Tenara® to stitch our canopies. This specialty thread resists UV sunlight, chemicals & salt water, and is the ideal choice for outdoor applications.

**Square**—Available in 2.4m & 3.7m

**Hexagonal** — Available in 2.7m & 3.2m
